Mr James McAlister—Dear Sir—Having purchased a few bottles of your Hair Oil last summer, I persuaded my sister who had lost her hair from some disease of the head to try it. She had used Bogle's Hyperion Fluid and several other articles recommended for the hair without any beneficial results, but after having made use of your Hair Oil a short time the hair began to make its appearance and she has now a fine head of hair.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S

HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

Of SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle in FULL STRENGTH and power without reducing it and this is done for the special benefit of those who use it as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Sir James Better, Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness, KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH

KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla and says that there is no medicine in which he has so much confidence in **Diseases of the Lungs.**" Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INVALUABLE Sarsaparilla is also doing wonders in foreign countries.

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, ... that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury." What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure Rich Healthy Quick Free Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE where the Liver is Swollen and Painful, Strength wasting Appetite gone, Pulse weak or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL POWER over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of a ... triumphant success over all other Sarsaparillas is that it does not tamper with the patient or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Others only scatter, or back on the disease but this EXTIRPATES it wholly from the system—this saves the patient's life while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH.

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured, or as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability to cure every Disease Affection or Pain which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame at his office,

No. 56 Union Street.

Dr D has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye. This is no advantage that Dr D has above all other practitioners and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Dyspeptic and Liver Complaints, all Pulmonary diseases, Scrofula Rheumatism, Fits, Dysentery, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, Cutaneous diseases and all affections of the kidneys and bladder, Tic dolor..., Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr D warrants a cure of any of the above diseases if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 A M and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these other vegetable origin are combined, designed to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the ... for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they to them. Recently he ... which have been ... them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulas, Erysipelas, Ulcerous affections, Eruptions and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution, among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates with which the proprietor became familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

The Great Remedy for Gonorrhœa

GLEET Stricture and all analagous complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms that during his practice of forty years this Paste has never, in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had a run of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians for months and even years but after taking the Paste for a few days the angry symptoms disappeared and the patients were discharged entirely cured.

If the unfortunate instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste we should not see so many emancipated bodies and sallow countenances as we do at the present time.

In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

State of Maine.

HEAD QUARTERS, Augusta Sept 4 1848.

THE appointment of companies to the several divisions of the militia of Maine, according to the provisions of the law now in force, gives to the

It will be seen by this law that divisions are allowed the term of two years to raise their quota of volunteers, at the expiration of which, on failing to furnish the number of companies to which they are entitled, other divisions will be authorized to raise them on petitioning to the commander in chief. It is hoped that the martial spirit of our citizens has not become entirely extinct by the long suspension of active military service but that there still exists in our State those military and patriotic impulses that will ensure a willing and prompt return to duty and a vigorous organization in each division of the militia of Maine of all the force allowed by law.

Independent companies already organized are invited to join the volunteer corps of our State, and whenever they indicate to this department their wish and determination to comply with the provisions of law they will be furnished with arms by the State.

Our citizens generally are also invited to organize new companies with becoming promptitude, petitions for which may be forwarded to the office of the Adjutant General.

The State has now on hand a variety of muskets and rifles and in a few weeks will be in possession of nearly one thousand percussion rifles, of the latest and most approved model which will be subject to the order of companies first making application. By the Commander in Chief,

ALFRED REDINGTON.

SILAS WRIGHT'S OPINION OF LEWIS CASS.

The Rochester Advertiser furnishes the following scrap of political history, extracted from a private letter addressed by Hon Silas Wright to a gentleman in Monroe County, New York, under date of April 8, 1847

A leading to the qualifications of Gen Taylor, whose name had been suggested as the probable candidate of the Democracy, he proceeds to say

"I know nothing of his tastes and qualifications for civil administration. Some brave and successful soldiers have those qualifications in perfection; and some have not a single one of them—but in civil situations are wholly destitute of moral firmness. *Our friend General Cass is one of them—a good soldier in his day, but afraid of his own shadow in a civil office, and a perfect time-server and demagogue*"

☞ The Philadelphia Ledger well says in reference to the duty of every freeman to our country to vote, that an individual who lives in society and expects its protection has no moral right to neglect the performance of any duty that gives it strength and stability and which is necessary to use it in the power that endorses all. Hence any man who refuses to take part in the selection of competent men to preside over the public affairs, manifests an indifference that if generally diffused, would not only be fatal to his own rights but be a death blow to public liberty and lead to the most lamentable social consequences. Bad government of those who have the choice of their own governors cannot arise from any thing but a neglect by the citizens faithfully to perform their civil duties. They can expect nothing but misrule, if they themselves will take no pains to prevent it, and nothing but corruption in public office, if they shamefully surrender their supervision of it, and leave public affairs to take charge of themselves. No one can shout louder against public abuses than the man who never votes. He seems to consider his own shameful neglect of duty as a privilege to abuse those who have only followed the example he has set, in neglecting to perform properly the trust that the public have confided to them.

If, then, reforms are desired, every citizen must help to make it.

GRAND RALLY.

The friends of ZACHARY TAYLOR held a grand rally at the Court House on the last evening, and were eloquently addressed by Col John T P Dumont, of Hallowell, and Hon. Elisha H Allen of Boston and formerly of this city. The time of our going to press does not admit of anything more than this simple announcement, and we must reserve our remarks to another day

☞ Governor Johnston of Pennsylvania, arrived in Philadelphia on Saturday afternoon, and was received with every demonstration of respect and esteem. A procession was formed and, notwithstanding the inclemency of the weather, the streets through which it passed were thronged. The most enthusiastic cheers greeted his appearance, while bouquets, &c, were showered upon him. He was called upon to make two addresses in the afternoon and evening

Ohio—Anarchy

The essential character of the party just bidding adieu to power in this country—its proneness to violence and outrage—its exultation of Force over Law—its disregard of compact and treaties—ought never to be lost sight of. Its idolatry of Andrew Jackson, the iron man who set his own laws with the sword and disregarded all others, was in perfect keeping with all its antecedents. His overturning of a decision of the Supreme Court, in the case of the Cherokee Indians against the State of Georgia, as in fact judgment unconstitutional, and thus rendering it a nullity, never elicited a murmur from its lips. His avowment, in his Bank Veto, that a President should subscribe the Constitution as he, and not others, understood it,—thus making the President practically the interpreter as well as the executor of the laws—was rapturously applauded by all. The Maryland convention in 1837, the Dorrite war in Rhode Island, the outrage on the sovereignty of New Jersey in the memorable Congressional contest, were but the ebullitions of an overdriving spirit. It is but few years since a Loco-Foco Congress contemptuously overrode an express law of the preceding Congress, wisely and justly prescribing that elections in the House should be unanimously made by single districts. Four Locofoco States resisted and defied this law, and the locofoco House admitted its Members thus illegally elected, without hesitation or question. They did not settle the right to repeal the law, for they could not have done it, but they trampled it under foot as worthy of no more respect than a dicers blasphemy. And the same party will do the like again and again. It is the nature of the beast.

Ohio has been the victim of several most unrighteous Apportionments of her Legislature, one of which sent William Allen to the Senate in 1836 in defiance of a popular Whig majority of 6,000. In 1842, the same party undertook to District the State for members of Congress so outrageously as to give the Whigs but seven out of twenty-one. The Whig Members of the Legislature, driven to the last extremity, took an extraordinary though perfectly legal step—they resigned their seats in a body, and thus prevented the consummation of the act—Thus stepping high in defiance of their most precious rights, was not justified by the People, it cost the Whig party a defeat at the ensuing election, which sent Wilkin Allen *again* to the Senate, the Locofoco Representative of a Whig State. The State was then apportioned for Congress most outrageously, but a subsequent Whig Legislature corrected some of the most intolerable errors.

Last Winter the Reapportionment of the State for the Legislature came up, and the Whigs had a small majority in each House. They apportioned with entire fairness as to Population, but, in putting counties together to form Senate and Representative Districts, they gave the advantage to their own party, as usual. And the County of Hamilton, which includes Cincinnati, having grown so populous as to be entitled to two Senators, while no other County was of it sufficient to but one, it was divided so as to give the Whigs one Senator and two Members, while to their opponents were conceded a Senator and three Members. That the minority in the Legislature violently denounced as unconstitutional, has, on the final passage of the bill, three Senators seceded in a body, leaving the Senate without a quorum. Thus the wheels of legislation were blocked for several days, the recusants retaining their seats but refusing to occupy them or return to the discharge of their duties. Finally, the bill having already passed each House, and been returned to the Senate for concurrence in an amendment, it was carried through by resolutions jointly signed and approved, and became *pro tanto force* a law.

The Locofocos pronounced it no law, which they had a perfect right to do. But they proceeded no arbitrarily and spouted the idea of submitting the question to any Judicial tribunal. On the contrary, while they nominated and recandidated according to the Apportionment made by a vote of Hamilton, they at the same time put the names of all their candidates there were canvassed and returned by their Inspectors, in utter defiance of the law, and it appears by a telegraphic that the returning officers will return the whole five Locofoco candidates elected to the exclusion of Messrs Spencer and Runyon, who were chosen in the Cincinnati district by a large majority. Unless five, it is arranged are to repair to Columbus and claim their seats, and either retain them or throw the entire State into anarchy. Should Gen Cass be elected, we believe Ohio will be deluged with fraternal blood. Should he be defeated, the conspirators will not venture to proceed in their designs.

The atrocity of this Hamilton County business is obvious at a glance. The County of Hamilton was never entitled to five Representatives until the Apportionment of last Winter. Anterior to that Winter every one would have been void. Yet here are five voted for by men who declare the Apportionment of last Winter unconstitutional and declare that it was never enacted. Yet the very men who so declare it, acknowledge and act on its validity so far as it serves the return. If the law is valid, the election by Districts is valid, and all the votes for five Representatives are waste paper. If it is invalid, the county has no right to five Members, and every vote for five Members is still invalid. Yet by holding this law both valid and invalid, the partizans of Cass expect to upset the recent verdict of the People and take the Government into their own hands. We think they will never do it—For Gen Cass will not be President to insure them impunity. If he should be, Ohio is doomed to anarchy, probably to carnage. We shall watch the course of events at Columbus with the deepest anxiety.

Concert this Evening.

The Moravian Vocalists have given two concerts at the City Hall to the entire satisfaction of our musical friends, and to the public generally. They are highly accomplished artists, and sing with an ease and grace of execution, and an excellence of effect, which cannot fail to make their concerts highly popular with all classes. The great variety which they introduce enables every one to do something to develope special individual accomplishments and yet contribute to the general harmony and reputation of the whole. They seem essentially necessary, each and all, to produce a brilliant and varied concert, such as can never fail to leave the audiences fully satisfied.

The performances of Stoepel, on the Wood and Straw, are wonderful in themselves and unlike anything ever seen or heard here before, and as interesting as new. A similar remark may be made in reference to the imitations of Zoyer, who does up the Trumpeting in capital style, with his voice.

In the genuine singing line, the true outgushing of melody, Mademoiselle Lovaray, is a good specimen. She sings like one made for it, and she pleases and delights with her bird-like naturalness and precision of execution.

Herr Krauez possesses a voice of great compass which is under perfect control and capable of lightning-like transitions.

On the whole, those who wish to enjoy an evening's entertainment, let them attend the concert at the City Hall, on this evening.

THE WOMEN OF THE AMERICAN REVOLUTION. By Elizabeth F Ellet, in two volumes. Second edition. New York, Baker and Scribner 1848

Mr E F Duren has laid upon our table, from his newly opened Bookstore on Main street, two substantial volumes with the above title.

These volumes bring us near the heart of that pure, trusting patriotism and that earnest love of liberty and that generous spirit of self sacrifice which distinguished the revolutionary period. Our fathers, heretofore have shown out before the eye of the world as the great actors in that remarkable period in the history of our country and of our race. It has now become the grateful labor of the accomplished author of these volumes to unfold a more interior leaf in that history and to show us how much is due to the mothers of that period. There has all along been in the public mind a sense of obligation to the women of the revolution, and it is now made more apparent and diffinite, there is no actuality imparted to the events in which these worthy high souled women participated, by finely engraved likenesses of the actors. Of these there are seven plates.

One hundred and twenty three women who gave an influence more or less marked in the revolutionary struggle are portrayed in this history of the females of our country. It is a noble tribute to their memory and throws a new interest around our early history. We find here the sober, stirring matters of fact and truth without any of the fancy painting embellishment which so temptingly offer themselves—He who has an American heart and cannot relish these volumes must be different from the common make of mortals.

The work is for sale at Duren's

Lime and Plaster for Manure

There are certain tracts upon which gypsum acts invariably while on others it does no good, and there are those where liming is required, and others where it is not.

[Jackson's Geology of Maine

My text appears on page 124 of Dr Jackson's third report. On page 162 of the same report, Prof Stephenson, an assistant of Prof Jackson, and for whose opinions he is responsible, says, "It can not be supposed that, by the discovery of Limestone in the forest of our State, that it can be furnished to any other market than that within the vicinity where it is discovered. But, as every intelligent farmer considers lime as indispensable to the successful cultivation of the soil, it should be wrought at every locality where it is discovered, in order to supply the increasing demand of this class of community."

Here we have a learned professor informing us that, that on some tracts of land lime is not required, and then that lime is indispensable on all soils, and that the farmer who does not believe these contradictions and absurdities lacks intelligence. But let this pass for what it is worth.

On the 4th of the present month I was visited by a farmer residing in Charleston, and in the course of conversation he remarked that, he could extend the cultivation of corn, the coming season, but that he was deficient in old manure to put in the hill.

He further remarked that he had concluded to supply this deficiency by mixing his green manure with the old, and put in a few casks of lime, and asked me if I did not think lime would be useful. I told him no—that lime on his land was worthless. I told him not to mix his old with his green manure, but to shovel over his green manure two or three times before using it and to put in plaster. If ten cart loads are to be used to put in the hill, on one acre, one, or one and a half bushels of plaster may be used. The question will arise, no doubt, in the minds of some readers, "how did this writer know whether this Man's land required lime, or plaster?"—The farmer told me. He remarked that when he went on to his farm six or seven years ago, it cut seven tons of hay, this year it cut twenty tons, and next season he expected to cut 25 tons, for he had sown the present year, 100 lbs of clover seed, and half a bushel of herds grass.

I remarked that his clover was out of all proportion to his herds grass seed. He replied that his land was natural to clover—but it did not die out, that it continued year after year to produce a good crop.

Thus we see that the clover, and other cultivated grasses, do not die out, and require frequent reseeding, is more conclusive evidence than any analysis of the soil can be, that the soil is free from sulphuric acid; and lime, applied to a soil free from sulphuric acid, will do no good. It is worthless if not injurious.

Perhaps some farmers will be inclined to say, what good can one bushel of plaster do on ten loads of green manure? To such inquiries I reply, just ask your wife, or cook, what possible good can a little saleratus water do to a batch of bread? What does she say? "It makes it whiter, lighter, sweeter, and more palatable food"—Can we ask for any thing more. But a bushel to ten cart loads, what a contrast. True, but "a little leaven, leaveneth the whole lump," is a profoundly learned scientific proposition, and is as applicable to a vegetable compost heap, as to a lump of dough. But why add plaster instead of lime?

Because, plaster contains two, if no more, elements necessary to produce fermentation and decomposition, and lime does not; namely, water and nitrogen. What is nitrogen? "And the Lord God formed man of the dust of the ground, and breathed into his nostrils the breath of life." Four fifths of the "breath of life" was nitrogen, and is of common gift to man, animals and plants. Neither can live without it. But, neither man, animals, or plants can live by breath alone; each require food united to its kind.

No food can be produced or cooked without the agency of nitrogen, or common air.

If the farmer wishes to know what agency nitrogen has in converting his manure heap into food for plants, he has only to go into his cow yard and drive up his cattle on a calm morning, and when they drop manure, let him keep his eye upon it for five minutes, and he will perceive that the surface has undergone in that short period, a very perceptible change of color, and this change of color goes on growing darker and darker, and penetrating deeper and deeper, until the whole mass becomes nitrogenized.

Every little particle of plaster carries into the manure heap 20 per cent of water, and a portion of nitrogen, of still air. Still air is absolutely necessary in order to produce fermentation in a manure heap. Caustic lime repels every thing in the air but carbonic acid, and when put in a manure heap retards fermentation. The air contains about one thousand parts of carbonic acid, and consequently caustic lime is a long time in becoming air slaked, or carbonated or air slaked lime is worthless as a manure.

Years of suffering, of physical and mental anguish to many an affectionate wife, and pecuniary difficulties to the husband might have been spared, thousands now poor would have enjoyed competence, thousands now broken in health would have enjoyed it, hundreds now in their graves been still alive by a timely possession of this work.

It was intended especially for the married or those contemplating marriage, as disclosing important secrets which should be known to them particularly.

Truly, knowledge is power. It is health, happiness, affluence.

The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author will attest.

Here also, every female—the wife, the mother the one either building into womanhood or the one in the decline of years, in which many contemplate an important change—can discover the causes the symptoms, and the most efficient remedies, and most certain mode of cure, in every complaint to which her sex is heir to.

This Superlative to the Married

may be gathered from the fact that Two Living Agents make from *Three to Five Dollars a day* from its sale—Hundreds of active, enterprising men are accumulating a little competence from the liberal discount allowed and the great demand for it. Orders are required to be accompanied with payment.

Copies will be sent by mail free of postage to the purchaser.

Over twenty thousand copies have been sent by mail within three months with prompt safety and certainty.

On the receipt of One Dollar the Married Woman's Private Medical Companion will be sent (*sealed free*) to any part of the United States. All letters and applications from those desiring to become agents must be post paid (except the one containing a remittance) and addressed to Dr A. M. Mauriceau Box 1324 New York City. Publishing Office 329 Liberty st New York.

The Married Woman's Private Medical Companion is sold by Booksellers throughout the United States.

The Graefenberg Health Bitters, a preparation of Balsams and other medicines of the strength to the system and a healthy complexion. Price 25 cents a package.

Dr Townsend's Sarsaparilla invigorates the whole system permanently. SPITTING BLOOD.

New York, April 28 1847.

Dr Townsend—I feel to believe that your Sarsaparilla is the means through Providence of saving my life. I had been spitting blood enough. I do not know what to say more. At last I met Lafayette street and I said, I might as well die as go home in misery. I purchased a bottle of your Sarsaparilla and in a short time, and then I has a woman that change been wrought in me. I can now attend to my business. I owe the city I trade to blood, and my thanks heals time. You up well may in that I can say thankful for those results

Your obedient servant,

WM BISSELL, 65 Catherine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly cured strictly to cure ordinary virtue

James Cummings, Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, is a gentleman spoken of in the following letter:

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir: I have suffered terribly for many years with the Rheumatism, considerable of the time I could not eat, sleep or walk. In the most bitter pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla and it has done me more than one thousand dollars worth of good. I am much better—indeed, I am entirely restored. You are at liberty to use this letter in any way you may think proper.

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course was not prepared for it, and was surprised to receive the following from an intelligent and respectable farmer in Westchester county

Fordham, August 13 1847

Dr Townsend—Dear Sir: A little girl, seven years of age, who has been severely afflicted with Fits, we tried almost every thing for her, but without success, at last, although we could find no recollection in any of your letters for cases like hers, we thought, as it was very ill we had to do, we would try some of your Sarsaparilla and are very glad we did, for it not only restored her strength but she has had no return of Fits, to our great pleasure and surprise. She is now playing about the city, for which we feel grateful. Yours respectfully,

JOHN BUTLER Jr.

Certificates and Testimonials

From the most Respectable Sources,

Could be given sufficient to fill every column in this paper! We make a few selections. The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and elevated reputation

Somer New Jersey July 12 1849

Da A H Christie—Dear Sir You wish to know of me what has been the result in my own case. I use application of the GALVANIC BELT AND NECKLACE. My reply was as follows

For about twenty years I had been suffering from Dyspepsia. Every year's experience became more and more painful. Permanent relief from any of the usual modes of medical treatment I did not find. My physicians were skilful and excellent men, but here their professions failed. About fourteen years since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for several of the year, caused me intolerable anguish. In the severe paroxysms, the skill of my physicians sometimes afforded me great relief. But this was only temporary. Further in the winter of 1844 and 45, in consequence of preaching a great deal in my own and various other churches, I think in all I was attacked by the Bronchitis, which was for me so severe as to require an immediate suspension of my pastoral labors. *My nervous system was not thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus exhausting that these disorders were connected with each other through the medium of the Nervous System. My sufferings were rendered severe until I had no power of locomotion, being confined to my bed. Besides from the discharge of those duties and the performance of those labors, in which my soul has ever found the highest of her joys.

But seeing from effect to cause I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System, every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID. This was in June 1846.

To my great astonishment, in two days my Dyspepsia had gone; in eight days I was enabled to resume my pastoral labors, nor have I since contracted a single cold, or accession of my Bronchites, and my Rheumatic affection also cleared to tolerable ease.

If time permitted, I could fill a sheet of paper with the details of particulars but I can only furnish this brief abstract. My Dyspepsia has never returned, the Rheumatism once in a while visits me, but not severely and is easily arrested, and its manifestly being driven from its hold upon my system, and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Rheumatic affections. They have tried them, with happy results, I believe in every case.

I am, dear sir, very respectfully yours,

ROBERT W LANDIS

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞ No trouble or inconvenience attends the use of DR. CHRISTIE'S GALVANIC ARTICLES, and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is *highly pleasant and agreeable*. They can be sent to any part of the country.
